

# Funny Face

Pull a funny face.  
Move your eyes and nose and mouth  
all over the place.

First you smile like a clown,  
Then you turn the corners down,  
Bare your teeth, open wide,  
Move your jaws from side to side.

Pull a funny face.  
Move your eyes and nose and mouth  
all over the place.

Raise your eyebrows, roll your eyes,  
Make them grow to twice their size,  
Shut them tight, wink and blink,  
Keep them open just a chink.

Pull a funny face.  
Move your eyes and nose and mouth  
all over the place.

Make your face long and thin,  
Give yourself a double chin,  
Twitch your nose, frown and pout,  
Suck your cheeks in, puff them out.

Pull a funny face.  
Move your eyes and nose and mouth  
all over the place.
